OBJECTIVE

Motivated and detail-oriented software engineering graduate with strong front-end development skills. Seeking a position as a Front-End Developer where I can contribute to building user-friendly, responsive web applications and grow professionally in a collaborative environment.

EDUCATION

Diploma in Front-End Development - Route Academy, 2024

Diploma in Software Engineering - Faculty of Statistical Studies, Cairo University, 2024

Bachelor of Arts - Cairo University, 2012

SKILLS

- Web Development: HTML, CSS, JavaScript, React.js

- Version Control: Git & GitHub

- Responsive Design: Bootstrap, Flexbox, Media Queries

- Tools: Visual Studio Code, Chrome DevTools

- Soft Skills: Problem-solving, teamwork, time management

LANGUAGES

- Arabic: Native

- English: Intermediate (B1)

PROJECTS

Fresh Cart

E-commerce web app for showcasing and purchasing products. Users can browse products, filter by category, add items to the cart, and view total prices.

- Technologies: React.js, Axios, Bootstrap, React Router, localStorage
- Features: Product listing, category filtering, cart management, responsive layout
- Role: Built entire front-end using React and managed state using custom hooks
